

Treat & Prevent Alzheimer's and Dementia

The CranioSacral Secret to *Reversing These
Leading Brain Disorders*

Michael Morgan

➤ **5.4 million Americans** currently are diagnosed with **Alzheimer's**- with a projected 115.4 million worldwide by 2050

➤ **1 in 3 seniors** die of **dementia** and related complications with **Alzheimer's** as the third leading cause of **death** in the US

What if there was an extremely effective, non-invasive way to treat and prevent debilitating brain disorders, such as dementia and Alzheimer's? The good news, is that there is something available now, that can prevent and treat this life-altering disease.

CranioSacral therapy has proven results in increased memory and cognition, recognition of family, friends and caregivers, decreased agitation and Increased periods of lucidity. Those with early symptoms, have seen their symptoms diminish if not disappear all together.

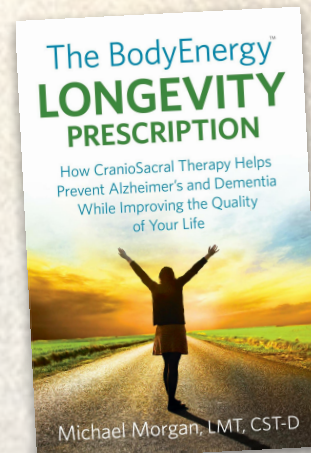

After experiencing first hand the effects of **Alzheimer's** and **Dementia** with his family, Michael Morgan pioneered and coordinated research in the application of **CranioSacral Therapy to Dementia and Alzheimer's disease**, and served as a consultant for a study which was published in the American Journal of Gerontological Nursing.

Michael Morgan LMT, CST-D has been an instructor of CranioSacral Therapy for the Upledger Institute for over 18 years and has taught this technique globally.

Featured in interviews on radio, internet, webinars, and other media over the last 10 years. Michael has developed classes for therapists and laypersons entitled **CranioSacral Therapy for Longevity** and also, advanced training classes for CranioSacral Therapists.

Michael Morgan has a BA degree in Physics and Philosophy from UC Berkeley, and a MA degree in Interdisciplinary Studies from Maharishi International University in Fairfield, Iowa.

Endorsements:

Michael brings to light how CranioSacral Therapy (CST) offers a simple solution to complex problems. CST is important in treating children with a variety of health challenges, and the senior population. I recommend CranioSacral therapy to anyone experiencing autism and Alzheimers.

Tami Goldstein WLMT, CST Autism expert and Author, Coming Through The Fog

CranioSacral Therapy helps children, seniors, people with closed head injuries, and anyone wanting better health. I have personally benefited from this treatment and recommend it to everyone.

Marci Shimoff, Professional Speaker, #1 NY Times Bestselling Author, Happy for No Reason, Love For No Reason, Chicken Soup for the Woman's Soul

Michael's genius is in the integration of this powerful therapy with the larger problems of Alzheimer's, head injury and developmental problems in children. He draws his wisdom from his long career of treating and teaching the art and science of CST globally. I highly recommend Michael as both a practitioner and teacher.

Karyn Shanks MD, FACP Founder and Director Kylemore Center for Medicine and Healing
