

Michael Morgan

Is Alzheimer's Preventable?

A new breakthrough in alternative medicine-Craniosacral Therapy-used by NFL players, children with Autism, and Seniors who are at risk or early to mid stage Dementia-shows promise extending your longevity and preventing the onset of this life altering disease!

➤ 5.4 million Americans currently are diagnosed with Alzheimer's- with a projected 115.4 million worldwide by 2050

After experiencing first hand the effects of **Alzheimer's** and **Dementia** with his step mother and sister in law, Michael pioneered and coordinated research in the application of **Craniosacral Therapy to Dementia and Alzheimer's disease**, and served as a consultant for a study which was published in the American Journal of Gerontological Nursing, as well as ongoing research in this area. **Michael Morgan LMT, CST-D** has been an instructor of CranioSacral Therapy for the Upledger Institute for over 18 years and has taught this technique extensively in North America, Canada, Russia, Mexico, Argentina, New Zealand, Australia, Iceland and other countries around the world.

He has been featured in interviews on radio, internet, webinars, and other media over the last 10 years. He has developed classes for therapists and laypersons entitled **CranioSacral Therapy for Longevity** as well as advanced training classes for CranioSacral Therapists. Michael earned a BA degree in Physics and Philosophy from UC Berkeley and an MA degree in Interdisciplinary Studies from Maharishi International University in Fairfield, Iowa.

Producers; Michael Morgan has extensive experience in radio and on-camera interviews. He is an engaging and knowledgeable guest.
